

DOZEX EARTHMOVERS

ABOUT US

Daya Charan and Group was founded by great visionary Shri Daya Charan Aggarwal in 1966 to serve the Heavy Earthmoving Machinery industry by offering the highest standards of services and state-of-the-art quality controls. Since then, the company has grown and evolved and is currently handled by the **3rd generation**, proudly upholding the strong family business. We started our journey decades back by dealing in **spare parts for bulldozers** and **other HEMMs** and have grown by leaps and bounds over the years by diversifying from spare parts to bulldozer hiring and from refurbishment to sales of new Bulldozers in India.

SERVICES OFFERED

1. Hiring of Bulldozers and other HEMMs

Decades of experience in this industry have not only made us rich in knowledge about machines but also made us more sound and experienced. We believe in on-service delivery. We provide our clients with flexible operations timing, experienced operating and maintenance staff, and a good quantity of spares in stock to achieve this.

2. Stockists of Spare Parts of Bulldozers and other HEMMs

We have a huge inventory of spare parts for **Bulldozers and other Earthmoving Machinery**, both new and old. Each part we sell comes with a "will fit" warranty, which ensures that every part purchased from us will be of OEM standards and reliable. We also import and export spare parts and machines.

3. Stockists of Spare Parts of Bulldozers and other HEMMs

Our client list includes eminent power plants, cement, and mining companies, as well as municipal corporations across the country.

Mining Fields

Cement Plants

Super Thermal Power Plants

Road Projects

Earth Leveling

Refurbishment & Repair Contracts

Stacking, Stocking & Heaping

Municipal Solid Waste Landfill Management

4. Fleet Management of Bulldozers and other HEMMs

We take complete fleet contracts of HEMMs comprising of Bulldozers, Excavators, Vibro, Motor Graders, etc., along with skilled operators, mechanics, and technical staff for the management of the HEMM fleet on-site at very reasonable and competitive rates.

-  Annual Maintenance Contracts (AMC)
-  Operations and Maintenance Contracts (OMC)
-  Comprehensive Maintenance Contracts (CMC)

SCALE AND VERSATILITY

We own the largest fleet of bulldozers in India, with more than 35 machines working in the most inhospitable terrains. From the deserts of Rajasthan at temperatures above 50 degrees to sub-zero temperatures in the mountains of J&K, our machines have proven their mettle across industries. Be it solid waste landfills, dry ash dams, stone mining, or coal power plants, our round-the-clock impeccable service has made us the most sought-after bulldozer service provider in the industry.

OUR CALLING CARD

-  Decades of experience in this field.
-  Skilled technicians, trained mechanics, and experienced operators.
-  24x7 impeccable after-sales service and support.
-  A-Z services related to bulldozers.
-  Comprehensive inventory of spare parts and consumables.

HIRING OF BULLDOZERS

'Dozex Earthmovers' is the end-to-end Equipment Rental Company. We deal in the Construction Industry by providing state-of-the-art infrastructure equipment at the customer's doorstep across the nation.

We provide various value-added services such as skilled operators for efficient operations, on-site repairs, and maintenance facilities for uninterrupted services on a 24x7 basis. With such tailor-made solutions, Dozex Earthmovers' enables their customers to focus on their core competencies, mitigate their equipment risks, and thus increase their profitability and output.

Excavators

Excavators are one of the most important construction equipment used for excavation, demolition, and material handling.

Machinery Range

BULLDOZERS (75HP TO 324 HP)

We proudly claim to be owner of more than 35 bulldozers ranging from 9 TON to 36TON.

| | | | | |
|--------|------|--------|--------|---------------------|
| BD50 | BEML | 90 HP | 11 TON | 3350 x 855 mm |
| BD80 | BEML | 180 HP | 22 TON | 4260 x 1080 mm |
| D155 | BEML | 324 HP | 36 TON | 4850 X 1140 mm |
| BD65-1 | BEML | 165 HP | 17 TON | 4250 X 1250 mm |
| D6G | CAT | 160 HP | 18 TON | 5.2 m X 3 m X 3.1 m |

CONTRACTORS & CONTRACTUAL WORK

Bulldozer and other heavy earthmoving machines are also hired for stacking, stocking, and making heaps of material at construction sites.

MINING FIELDS

Our machines have been deployed in coal mines for the processes of digging, stacking, and removal of overburden. Apart from coal mines, we also deal with other aggregates/minerals and materials like crushed stone, stone dust, and limestone.

CEMENT PLANTS

Our work in cement plants has been very extensive, right from unloading of material to pushing the finished product for conveyance.

SUPER THERMAL POWER PLANTS

The scope of our work ranges from unloading, stacking, and pushing of coal to maintenance and cleaning of ash dams.

MSW LANDFILL MANAGEMENT

Our repertoire is replete with management of Municipal Solid Waste landfills (MSW landfills) which were old, unorganised, and crammed beyond their capacity and our efficient dumping methods and scientific management made them usable. We have also conducted works such as safe closures of landfills as well as building new scientific landfills from scratch. Our firm has proved its mettle in successfully executing time-bound contracts even with penalty clauses. In fact, our willingness to work with penalty clauses has not only impressed our clientele but has increased our reputation even amongst our competitors.

STOCKISTS OF SPARE PARTS OF BULLDOZERS AND OTHER HEMMS

WE OFFER SPARE PARTS BELONGING TO DIFFERENT PRICE BRACKETS , TO SUIT THE POCKETS AND VARYING REQUIREMENTS OF DIFFERENT CUSTOMERS.

- FILTERS & OTHER CONSUMABLES

Engine Parts

OTHER HEMM PART

Undercarriage Parts

Gearbox Parts

Clutch Parts

Hydraulic Parts

Push frame

Steering Systems

All other parts

REFURBISHMENT & REPAIR CONTRACTS

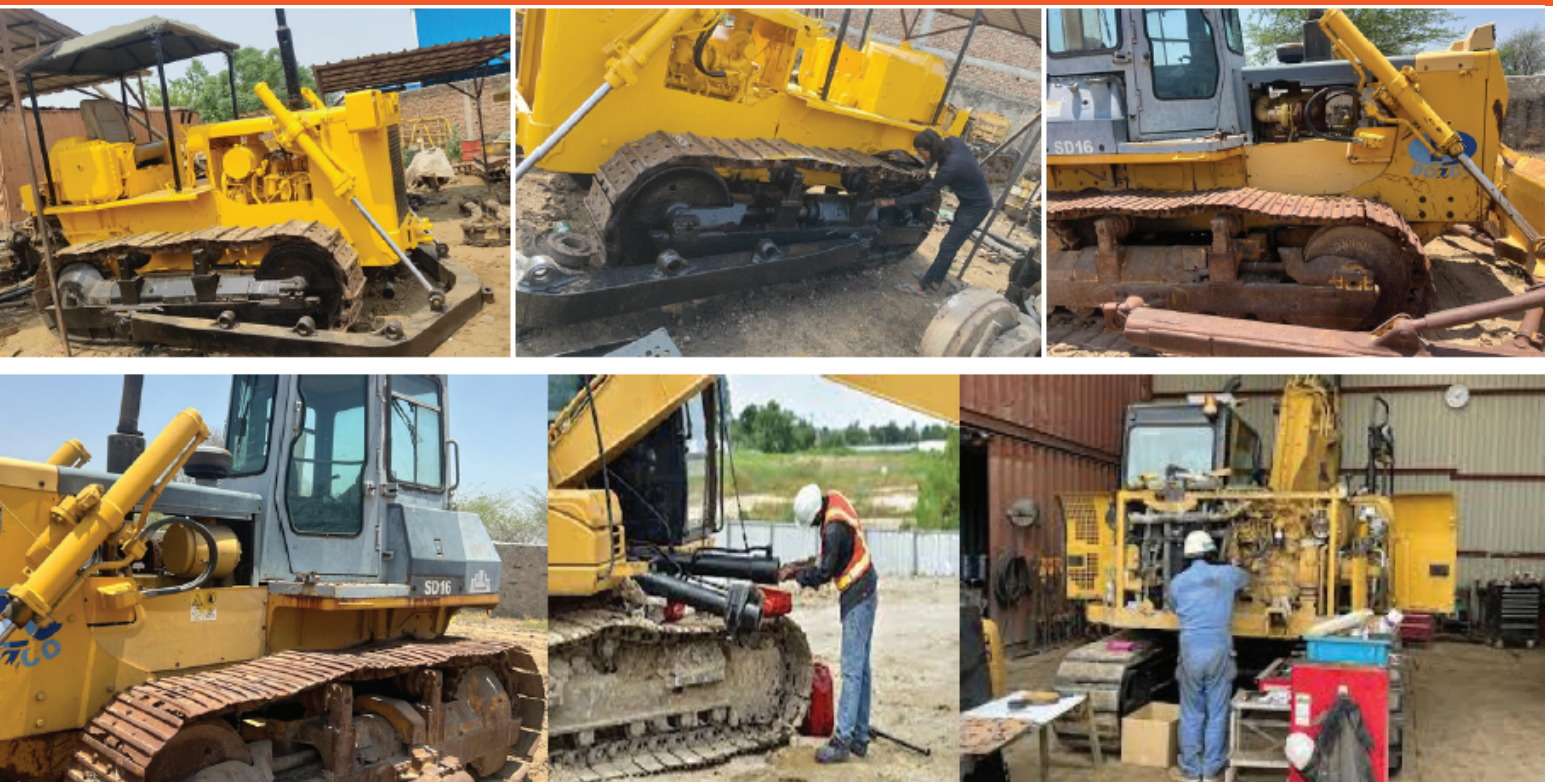

Dozex Earthmovers is one of the leading sellers of refurbished bulldozers, excavators, and other earth-moving machines. We have successfully refurbished old and creaky equipment into standardized usable machines, sold further to clients or used by our firm. Our robust system ensures that the owners of the old machines we bought get an optimum value for the machine they sell by accurately judging the parameters on which the machine still carries usability.

Our refurbished machines have always been considered in good stead in the HEMM market due to:

A reasonably low cost (up to 1/4th of the price of an original machine) Our exacting quality control measures Our stringent checks ensure that not even the smallest part of a machine is spared a thorough check and possible replacement of spare parts. Our quality checks originate from the interiors, suspension, and locks of a machine to the outward painting and polishing. Such pin-to-pin check-ups ensure the running of the machine over and above the minimum barrier of a standardized acceptable machine.

The buyer gets a ready-to-use refurbished machine at a quarter of the price of a new machine with similar specifications. We also provide manuals and catalogues along with the machines and offer skill enhancement training to operators and mechanics at the request of clients purchasing equipment from us.
